

**Eurocode 6:
Design of masonry structures
Part 1-1: General rules for reinforced and
unreinforced masonry structures
Estonian National Annex**

**Eurokoodeks 6:
Kivikonstruktsioonide projekteerimine
Osa 1-1: Üldreeglid sarrustatud ja sarrustamata
kivikonstruktsioonide projekteerimiseks
Eesti standardi rahvuslik lisa**

FOREWORD

This document:

- is the Estonian National Annex to the European Standard EN 1996-1-1:2005 „Eurocode 6: Design of masonry structures – Part 1-1: General rules for reinforced and unreinforced masonry structures“. It includes Estonian Nationally Determined Parameters (NDP) and procedures and it must be used together with EN 1996-1-1 for structural design of buildings and civil engineering works built in Estonia,
- was ratified with an order of Estonian Centre for Standardisation dated 20.03.2008 nr 49,
- is endorsed with the notification published in the April 2008 issue of the official bulletin of the Estonian Centre for Standardisation.

The National Annex of EVS-EN 1996-1-1 was prepared by Tallinn University of Technology's Department of Structural Design's docent Väino Voltri. This document has been approved by Technical Committees EVS/TK 13 „Ehituskonstruktsioonide projekteerimine“.

The proposition to prepare a National Annex was made by EVS/TK 13, it was coordinated by the Estonian Centre for Standardisation and funded by the Ministry of Economic Affairs and Communications.
