Introduction

Cleanrooms and associated controlled environments provide for the control of airborne particulate contamination to levels appropriate for accomplishing contamination-sensitive activities. Products and processes that benefit from the control of airborne contamination include those in the aerospace, microelectronic, pharmaceutical, medical device, food, and healthcare industries.

Introduction

Les salles propres et les environnements maîtrisés apparentés permettent de maîtriser la contamination particulière aéroportée à des niveaux appropriés à la conduite d'activités sensibles à la contamination. Parmi les produits et procédés qui bénéficient de cette maîtrise de la contamination aéroportée figurent, entre autres, ceux que l'on trouve dans des secteurs industriels tels que l'aérospatiale, la microélectronique, la pharmacie, les dispositifs médicaux, l'alimentation et la santé.
