English version

**Manufactured articles solely filled with feather and down -
Requirements for upholstered parts and cushions**

Articles manufacturés garnis de plumes et duvets -
Exigences pour les parties rembourrées et les coussins

Fertigartikel gefüllt mit Federn und Daunen - Anforderungen
an gepolsterte Teile und Kissen

This European Standard was approved by CEN on 14 March 2003.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (EN 13854:2003) has been prepared by Technical Committee CEN /TC 222, "Feather and down as filling material for any article, as well as finished articles filled with feather and down" the secretariat of which is held by UNI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by November 2003, and conflicting national standards shall be withdrawn at the latest by November 2003.

Annex A is informative.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and the United Kingdom.

Introduction

Cushions and other upholstered solely filled with feathers and/or down are manufactured articles consisting of a filling enclosed within a primary tick having special characteristics for retaining it. Such an article can be fitted into a cover of other fabric or of other material like leather etc. It can be used as a seat or back cushions on sofas, armchair and the like, as armrest or as decorative element. It is important to stress that the feather and/or down filling is a loose material without a proper shape, i.e. it is not bound, not interlaced, not woven.

These articles are used in various manners, depending on:

- a) a functional use (i.e. they are a part of an upholstered piece of furniture, for instance a seat cushion of an armchair);
- b) a decorative use (i.e. the article is not an integral part of the piece of furniture).

It is necessary to stress that the producer of an upholstered piece of furniture does not always manufacture the cushion or other upholstered parts himself but has them manufactured by a converter.

1 Scope

This European Standard specifies the characteristics for new semi-finished products, i.e. cushions and other upholstered elements solely filled with feathers and/or down, to their primary tick and their filling.

It does not apply to their cover nor to support they are meant for.

Characteristics to be agreed upon by the purchaser and the converter are given in Annex A (informative).

2 Normative references

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text, and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies (including amendments).

EN 1883 *Feather and down - Sampling in view of tests*
