Foreword

The text of document (64/1807/FDIS), future edition 2 of IEC 60364-7-715, prepared by IEC TC 64, "Electrical installations and protection against electric shock" was submitted to the IEC-CENELEC parallel vote and approved by CENELEC as HD 60364-7-715:2012.

A draft amendment, which covers common modifications to IEC 60364-7-715, was prepared by CLC/TC 64, "Electrical installations and protection against electric shock" and approved by CENELEC.

The following dates are fixed:

- latest date by which this document has (dop) 2013-01-18 to be implemented at national level by publication of an identical national standard or by endorsement
- latest date by which the national (dow) 2015-01-18 standards conflicting with this document have to be withdrawn

This document supersedes HD 60364-7-715:2005.

HD 60364-7-715:2012 includes the following significant technical changes with respect to HD 60364-7-715:2005:

- clause numbering is aligned with present structure of HD 60364;
- introduction of references to LED modules and their particular installation requirements;
- modification of requirements for cross-sectional area of conductors.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC [and/or CEN] shall not be held responsible for identifying any or all such patent rights.
