TECHNICAL CORRIGENDUM 1

Technologies de l'information — Règles de codage ASN.1: Règles de codage XML (XER) — Partie 4

RECTIFICATIF TECHNIQUE 1

Technical Corrigendum 1 to ISO/IEC 8825-4:2015 was prepared by Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 6, *Telecommunications and information exchange between systems*, in collaboration with ITU-T. The identical text is published as ITU-T Rec. X.693 (2015)/Cor.1 (10/2017).

ITU-T RECOMMENDATION

Information technology – ASN.1 encoding rules:
XML Encoding Rules (XER)

Technical Corrigendum 1

Conventions used in this corrigendum: Original, unchanged, text is in normal font. *Deleted text is struck-through, thus*: ~~deleted text~~. *Inserted text is underlined, thus*: <u>inserted text</u>.

1   Clause 15.4.4

Replace clause 15.4.4 with the following:

15.4.4   If a type that appears in a "ContentsConstraint", ~~or~~ in a "TypeConstraint"<u>, or in a "TableConstraint"</u> is to be encoded by EXTENDED-XER, then the final encoding instructions (as determined by the above rules) are used in determining the encoding of that type. If a type appears in any other ASN.1 constraint, then all associated encoding instructions are discarded.
