## Rubber compounding ingredients — Silica, precipitated, hydrated —

### Part 1: Non-rubber tests

#### TECHNICAL CORRIGENDUM 1

*Ingrédients de mélange du caoutchouc — Silices hydratées précipitées —*

*Partie 1: Essais sur le produit brut*

*RECTIFICATIF TECHNIQUE 1*

Technical Corrigendum 1 to ISO 5794-1:2005 was prepared by Technical Committee ISO/TC 45, *Rubber and rubber products*, Subcommittee SC 3, *Raw materials (including latex) for use in the rubber industry*.

*Page 2, Table 1*

Replace the first item in the table by the following, in which the silica content of the ignited sample is calculated rather than that of the dried sample, thus allowing the calculation to be simplified:

Property	Method of test
Silica content of ignited sample, % (by mass)	ISO 3262-19:2000, Clause 6
