

Corrigendum to HD 60364-7-709:2009

English version

Clause

Special National Condition

709.521.7.2

Delete the Special National Condition for Spain of this clause.

709.55.1.1

New text:

In Spain, socket-outlets with a rated current equal to 16A may be used according to UNE 20315 in addition to those of the IEC 60309 series.

709.55.1.5

New text:

In Spain, for each socket-outlet installed according to the EN 60309 series, at least one socket-outlet of the national class (UNE 20315) shall be provided.

Clause

Deviation

709.55.1.1

Spain

According to RD 842/2002, Low Voltage Installation Rules, socket-outlets shall comply with UNE-EN 60309 series, independently of the current rating, with the following characteristics:

- Assigned voltage: 230 V
 - Assigned current: 16 A
 - Number of poles: 2 and earth
 - Degree of protection: IP X6
