

**Gaas-keskküttekatlad. Erinõuded  
kondenseerivatele kateldele, mille  
nimisoojussisend ei ületa 70 kW**

Gas-fired central heating boilers - Specific  
requirements for condensing boilers with a nominal  
heat input not exceeding 70 kW

## EESTI STANDARDI EESSÕNA

## NATIONAL FOREWORD

Käesolev Eesti standard EVS-EN 677:1999 sisaldb Euroopa standardi EN 677:1998 ingliskeelset teksti.	This Estonian standard EVS-EN 677:1999 consists of the English text of the European standard EN 677:1998.
Käesolev dokument on jõustatud 23.11.1999 ja selle kohta on avaldatud teade Eesti standardiorganisatsiooni ametlikus väljaandes.	This document is endorsed on 23.11.1999 with the notification being published in the official publication of the Estonian national standardisation organisation.
Standard on kättesaadav Eesti standardiorganisatsioonist.	The standard is available from Estonian standardisation organisation.

<b>Käsitlusala:</b> See standard kehtib gaas-keskküttekatelde kohta, mida tootja liigitab "kondenseerivateks kateldeks". See standard kehtib ainult tüübitestide kohta. Standard täiendab või muudab katlastandardeid EN 297, prEN 483 ja EN 625 ja määrab kindlaks lisanõuded kondenseerivatele kateldele.	<b>Scope:</b>
--	---------------

**Võtmesõnad:** katlad, keskküte, kondensatsioon, kütteseadmed, seadmete eristuskiri, tehnilised märkused, testimine, tööomaduste hindamine

ICS 91.140.10

Descriptors: Heating boilers, gas appliances, condensing boilers, testing, requirements.

**English version**

**Gas-fired central heating boilers**

**Specific requirements for condensing boilers with a nominal heat input  
not exceeding 70 kW**

Chaudières de chauffage central  
utilisant les combustibles gazeux –  
Exigences spécifiques aux chaudières à  
condensation dont le débit calorifique  
nominal est inférieur ou égal à 70 kW

Heizkessel für gasförmige Brennstoffe –  
Besondere Anforderungen an den  
Brennwertkessel mit einer Nennwärme-  
belastung kleiner als oder gleich 70 kW

This European Standard was approved by CEN on 1998-06-20.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

## Foreword

This European Standard has been prepared by Technical Committee CEN/TC 109 "Central heating boilers using gaseous fuels", the Secretariat of which is held by NNI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by December 1998, and conflicting national standards shall be withdrawn at the latest by December 1998.

This European Standard has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For relationship with EU Directive(s), see informative Annex ZA, which is an integral part of this standard.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

## 1. Scope

This European standard applies to gas-fired central heating boilers, which are declared by the manufacturer to be "condensing boilers":

- of types B (excluding appliances without a fan) and C,
- using one or more gases corresponding to the three gas families, and
- for which the nominal heat input is less than or equal to 70 kW.

This European standard only covers type testing.

This European standard completes or modifies the standards EN 297, prEN 483 and EN 625, hereafter called "boiler standards". It specifies supplementary requirements for condensing boilers.

## 2. Normative references

This European standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.

EN 297	Gas-fired central heating boilers - Type B <sub>11</sub> and B <sub>11BS</sub> boilers fitted with atmospheric burners of nominal heat input not exceeding 70 kW
EN 437	Test gases - Test pressures - Appliances categories
prEN 483: 1998	Gas-fired central heating boilers fitted - Type C boilers, fitted with atmospheric burners of nominal heat input not exceeding 70 kW
EN 625	Gas-fired central heating boilers - Specific requirements for the domestic hot water operation of combination boilers of nominal heat input not exceeding 70 kW
