EESTI STANDARDI EESSÖNA**NATIONAL FOREWORD**

Käesolev Eesti standard EVS-EN 726-5:2001 sisaldb Euroopa standardi EN 726-5:1999 ingliskeelset teksti.	This Estonian standard EVS-EN 726-5:2001 consists of the English text of the European standard EN 726-5:1999.
Käesolev dokument on jõustatud 18.06.2001 ja selle kohta on avaldatud teade Eesti standardiorganisatsiooni ametlikus väljaandes.	This document is endorsed on 18.06.2001 with the notification being published in the official publication of the Estonian national standardisation organisation.
Standard on kätesaadav Eesti standardiorganisatsioonist.	The standard is available from Estonian standardisation organisation.

Käsitlusala: This part of EN 726 specifies payment methods for telecommunication applications, using IC cards. These payment methods are not necessarily linked to the applications which use them, and they can be used by more than one application.	Scope: This part of EN 726 specifies payment methods for telecommunication applications, using IC cards. These payment methods are not necessarily linked to the applications which use them, and they can be used by more than one application.

Endgeräte im Telekommunikations-
bereich – Teil 5: Bezahlungsmethoden

This European Standard was approved by CEN on 1999-01-01.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, the Czech Republik, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 224 "Machine-readable cards, related device interfaces and operations", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by July 1999, and conflicting national standards shall be withdrawn at the latest by July 1999.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

1 Scope

This part of EN 726 specifies payment methods for telecommunication applications, using IC cards. These payment methods are not necessarily linked to the applications which use them, and they can be used by more than one application.

This part of EN 726 gives guidance on the interface between the IC card and the external world, using the tools given in EN 726-3:1994 and EN 726-7.

This part of EN 726 considers an open system, in which the payment methods will be used. A closed system is a special case of the open system.

This part of EN 726 describes the following methods of payment :

- pre-payment ;
- autobilling.

For the purpose of this standard the functionality is based on :

- symmetric algorithms ;
- diversified keys.

2 Normative references

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications listed hereafter. For dated references, subsequent amendments to, or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.
