**Sacks for the transport of food aid
Sacks made of polyethylene film**

Sacs pour le transport de l'aide
alimentaire; sacs faits d'un film de
polyéthylène

Säcke für den Transport von Lebens-
mitteln für die Nahrungsmittelhilfe; Beutel
aus Polyethylenfolie

This European Standard was approved by CEN on 1994-05-12.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by CEN/TC 120 'Sacks for the transport of food aid', the Secretariat of which is held by NNI.

This European Standard has been prepared under a mandate given to CEN by the Commission of the European Communities and the European Free Trade Association, and supports essential requirements of the relevant EC Directive(s).

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, and conflicting national standards withdrawn, by November 1994 at the latest.

In accordance with the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard:

Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

This document is a preview generated by EVS

1 Scope

This European Standard specifies the general characteristics, requirements and methods of test for sacks made of polyethylene film.

This standard applies to sacks made of polyethylene film with a net filling weight up to 2000 g for packing and transporting foodstuffs for food aid and to polyethylene film sacks with a net filling weight up to 1000 g supplied as empty sacks together with foodstuffs packed in sacks for the distribution of small quantities.

The packaging surrounding filled sacks is not covered by this standard.

2 Normative references

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.
