European foreword

This document (EN 50110-2:2021) has been prepared by CLC/BTTF 62-3, "Operation of electrical installations".

The following dates are fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2021-09-26
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2022-12-23

This document supersedes EN 50110-2:2010 and all of its amendments and corrigenda (if any).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

Introduction

The European Standard EN 50110 series consists of two parts:

- the first part, EN 50110-1, contains minimum requirements valid for all CENELEC countries and some additional informative annexes dealing with safe working;
- the second part, FprEN 50110-2, is a set of national annexes (one per country) which specify either the additional present safety requirements or give the national supplements to these minimum requirements at the time when this European Standard was prepared.

The national annexes are summarized by the respective member country.

National Committees shall notify CENELEC of any changes needed to their national annex.

For users understanding, it is important to publish this standard in all official CENELEC languages (English, French and German) (see also the footnotes Nr. 1 to 4). In effect, every clause in the following example of structure for each national annex which is marked by index 2 and 4 “Written in all official CENELEC languages...” will be translated accordingly.

To reduce effort, every national Committee is recommended to prepare these clauses in their own national annex in English. The French and German translations will be provided by CENELEC with publishing.

The structure of each national annex shall comply to the structure shown in “Example of the structure”:

Example of the Structure

- # Name of Country¹**
- #.1 Laws and regulations²**
 - #.1.# Title of national law or regulation³ → void
 - #.1.#.1 Translation of Title of national law or regulation² → void
 - #.1.#.2 *Explanation of content of national law or regulation⁴* → void
- #.2 Standards²**
 - #.2.# Title of national Standard³
 - #.2.#.1 Translation of Title of national Standard²
 - #.2.#.2 *Explanation of content of national Standard⁴*
- #.3 Other Documents²**
 - #.3.# Title of the national Document³
 - #.3.#.1 Translation of Title of the national Document²
 - #.3.#.2 *Explanation of content of the national Document⁴*

NOTE Each Headline except “Name of Country”, “Laws and Regulations”, “Standards” and “Other documents” is a placeholder. In case of there is no item to mention, the remark “→ void” is to be added after the placeholder as shown in the first chapter of this example of the structure.
