

**INFORMATSIOON JA DOKUMENTATSIOON
Rahvusvaheline noodiväljaande standardnumber
(ISMN)**

**Information and documentation
International standard music number (ISMN)
(ISO 10957:2021, identical)**

EESTI STANDARDI EESSÖNA**NATIONAL FOREWORD**

See Eesti standard EVS-ISO 10957:2022 sisaldab rahvusvahelise standardi ISO 10957:2021 „Information and documentation. International standard music number (ISMN)“ identset ingliskeelset teksti.

Ettepaneku rahvusvahelise standardi ümbertrüki meetodil ülevõtuks on esitanud EVS/TK 22, standardi avaldamist on korraldanud Eesti Standardimis- ja Akrediteerimiskeskus.

Standard EVS-ISO 10957:2022 on jõustunud sellekohase teate avaldamisega EVS Teatajas.

Standard on kätesaadav Eesti Standardimis- ja Akrediteerimiskeskusest.

This Estonian Standard EVS-ISO 10957:2022 consists of the identical English text of the International Standard ISO 10957:2021 „Information and documentation. International standard music number (ISMN)“.

Proposal to adopt the International Standard by reprint method has been presented by EVS/TK 22, the Estonian Standard has been published by the Estonian Centre for Standardisation and Accreditation.

Standard EVS-ISO 10957:2022 has been endorsed with a notification published in the official bulletin of the Estonian Centre for Standardisation and Accreditation.

This standard is available from the Estonian Centre for Standardisation and Accreditation.

Käsitlusala

Selles dokumendis iseloomustatakse rahvusvahelist noodiväljaande standardnumbrit (ISMN), mis võimaldab ainuomaselt identifitseerida noodiväljaandeid. Standard käsitleb nimetatud väljaannetele ainuomase ISMN-i andmist, eristamaks mingi nimetuse üht editsiooni või mingi editsiooni üht eraldivõetavat osa kögist teistest editsioonidest. See dokument täpsustab ka ISMN-i struktuuri ja selle kujutise asukoha noodiväljaannetel.

See dokument kohaldub noodiväljaannete editsioonidele. ISMN-i võib kasutada ka nende noodieditsioonide identifitseerimiseks, mis on avaldatud koos teiste andmekandjatega ning moodustavad nendega ühe terviku (nt editsioon, mis koos helisalvestisega moodustab ühtse toote).

ISMN-i ei kasutata teistel andmekandjatel iseseisva väljaandena avaldatud materjali identifitseerimiseks, nt heli- või audiovisuaaltooted (näit CD-d või DVD-d), millele kohalduvad teised standardid nagu ISO 3901 (International Standard Recording Code) ja ISO 15706 (International Standard Audiovisual Number).

ISMN ei sobi toodete enda identifitseerimiseks (CD-d või DVD-d), milleks saab kasutada 13-numbrilist EAN (*European Article Numbering*) vööt-koodi.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 46, *Information and documentation*, Subcommittee SC 9, *Identification and description*.

This third edition cancels and replaces the second edition (ISO 10957:2009), of which it constitutes a minor revision.

The changes compared to the previous edition are as follows.

- The introductory texts for Clause 2 (Normative references) and Clause 3 (Terms and definitions) have been revised to be accordance with the current ISO style.
- Notes in the definitions have been modified to "Note 1 to entry" in accordance with the current ISO style.
- Clause 7 has been modified to remove specifics about the Registration Authority and provide the URL to ISO's list of Registration Authorities.
- Throughout the document, references to the ISMN Registration Authority were either made generic or removed.
- Annex C has been modified to make all references to the Registration Authority generic.
- ISO 21047 and ISMN Users' Manual have been removed from the Bibliography.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.

Introduction

The International standard music number (ISMN) was developed by, and for, the music publishing sector as a separate system to complement the International standard book number (ISBN). The existence of the ISMN as a separate identifier system makes it possible to identify printed and notated music as a distinct category of publication within the global supply chain and to develop trade directories and similar services for the specialized market for music publications. In addition, some features of the ISBN system, such as the inclusion of national and language groupings within the structure of the ISBN and its administration, are not suited to the practices and organization of the music sector where linguistic content does not have the same relevance that it does for textual publications. For these and other practical reasons, the ISMN and ISBN co-exist as separate identification systems.

Information and documentation — International standard music number (ISMN)

1 Scope

This document specifies the International standard music number (ISMN), which is a means of uniquely identifying editions of notated music. It specifies the assignment of a unique ISMN on such editions to distinguish one edition of a title or one separate component of an edition from all other editions. This document also specifies the construction of an ISMN and its location on editions of notated music.

This document is applicable to editions of notated music. The ISMN can also be used to identify editions of notated music that are presented with other media to form an integrated whole (e.g. an edition that, together with a sound recording, forms a single product).

The ISMN is not suitable for the identification of material in other media that are issued separately, such as sound or audiovisual products (e.g., CDs or DVDs), for which other standards such as ISO 3901 (International Standard Recording Code) and ISO 15706 (International Standard Audiovisual Number) are applicable.

The ISMN is not suitable for the identification of the products themselves (CDs or DVDs), for which the European article numbering (EAN) 13-digit bar code can be used.

2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

ISO/IEC 15420, *Information technology — Automatic identification and data capture techniques — EAN/UPC bar code symbology specification*

3 Terms and definitions

For the purposes of this document, the following terms and definitions apply.

ISO and IEC maintain terminological databases for use in standardization at the following addresses:

- ISO Online browsing platform: available at <https://www.iso.org/obp>
- IEC Electropedia: available at <https://www.electropedia.org/>

3.1

check digit

added digit which can be used to verify the accuracy of the assignment of the ISMN through a mathematical relationship to the digits contained in that number

3.2

edition

all copies of a *notated music* (3.5) resource produced from substantially the same original input and issued by the same entity or group of entities or a person

Note 1 to entry: This covers material that is for sale, for hire, gratis, or for copyright purposes only.
