NATIONAL FOREWORD

Käesolev Eesti standard EVS-EN 1034-1:2000+A1:2010 sisaldab Euroopa standardi EN 1034-1:2000+A1:2010 ingliskeelset teksti.

This Estonian standard EVS-EN 1034-1:2000+A1:2010 consists of the English text of the European standard EN 1034-1:2000+A1:2010.

Standard on kinnitatud Eesti Standardikeskuse 31.03.2010 käskkirjaga ja jõustub sellekohase teate avaldamisel EVS Teatajas.

This standard is ratified with the order of Estonian Centre for Standardisation dated 31.03.2010 and is endorsed with the notification published in the official bulletin of the Estonian national standardisation organisation.

Euroopa standardimisorganisatsioonide poolt rahvuslikele liikmetele Euroopa standardi teksti kättesaadavaks tegemise kuupäev on 03.03.2010.

Date of Availability of the European standard text 03.03.2010.

Standard on kättesaadav Eesti standardiorganisatsioonist.

The standard is available from Estonian standardisation organisation.

EUROPÄISCHE NORM

March 2010

EN 1034-1:2000+A1

ICS 85.100

Supersedes EN 1034-1:2000

English Version

Safety of machinery - Safety requirements for the design and construction of paper making and finishing machines - Part 1: Common requirements

Sécurité des machines - Prescriptions de sécurité pour la conception et la construction de machines de fabrication et de finition du papier - Partie 1: Prescriptions communes

Sicherheit von Maschinen - Sicherheitstechnische Anforderungen für Konstruktion und Bau von Maschinen der Papierherstellung und Ausrüstung - Teil 1: Gemeinsame Anforderungen

This European Standard was approved by CEN on 17 September 1999 and includes Amendment 1 approved by CEN on 17 January 2010.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (EN 1034-1:2000+A1:2010) has been prepared by Technical Committee CEN/TC 198 "Printing and paper machinery - Safety", the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 2010, and conflicting national standards shall be withdrawn at the latest by September 2010.

This document includes Amendment 1, approved by CEN on 2010-01-17.

This document supersedes EN 1034-1:2000.

The start and finish of text introduced or altered by amendment is indicated in the text by tags [A].

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

his document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For relationship with EU Directive(s), see informative Annexes ZA and ZB, which are integral parts of this document. (4)

This Standard is part 1 of a standard for the technical safety requirements for the design and construction of paper making and finishing machines which consists of the following parts:

Part 1: Common requirements

Part 2: Barking drums

Part 3: Winders and slitters, plying machines

Part 4: Pulpers and their feeding facilities

Part 5: Sheeters

Part 6: Calanders

A₁) Part 7: Chests (A₁)

A Part 13: Machines for de-wiring bales and units

Part 14: Reel splitter

Part 16: Paper and board making machines

Part 17: Tissue making machines

Part 21: Coaters

Part 22: Wood grinders (41

CEN/TC 198 intends to prepare further parts to cover the paper making and finishing machines listed in annex A.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech St. 3. Ma and Unit.

OCCUMBENTALIS OF THE STATE OF THE ST Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Introduction

This European Standard is a C type standard as stated in EN ISO 12100:2003 The standard consists of a number of parts which are listed in annex A. The extent to which hazards are covered is indicated in the scope of this standard.

1 Scope

- 1.1 This standard applies to paper making and paper finishing machines. It contains definitions and requirements which apply to all paper making and paper finishing machines listed in annex A and shall be used in connection with the specific part applicable for the respective machine listed in annex A. Specific parts can contain additional requirements or deviations from PD EN 1034-1 PO In which case the specific stipulations take precedence over the specification made in PO EN 1034-1 PO In the standard deals with the hazards listed in 4.
- 1.2 This standard does not apply to machines used in paper converting. See EN 1010-1 to EN 1010-5.
- 1.3 This standard applies to machines produced after..... (date of CEN approval).

2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

3 Terms and definitions

For the purpose of this standard, the definitions given in EN ISO 12100-1:2003 and the following definitions apply:

3.1

Paper making and finishing machines

machines with which pulp or paper fibres are obtained, processed, joined together to form and also to finish paper, board, tissue and fibreboard

3.2

Paper converting machines

see EN 1010

3.3

Machine section

functional unit of a paper making machine such as wire section, press section, dryer section, smoothing unit, coater, winding unit.

3.4

Crawl speed

the lowest practicable speed, no greater than 0,25 m/s (15 m/min). It can differ for various types of machines and is then referred to under the sections describing specific machine types.

3.5

Running machine

machine operating at a speed higher than crawl speed.

3.6

Hold-to-run control

operation of the machine by means of a device as defined in 3.23.3 of EN 292-1:1991

3.7

Inrunning nips and wrapping points

3.7.1

Inrunning nip

danger point caused by rotating roll, cylinder or roller nips where persons, parts of the body or clothing can be drawn in. Such nips arise between

- a) counter-rotating part;
- b) a rotating part and an adjacent fixed part;
