

Puitlaastplaadid. Niiskuskindluse määramine. Osa 1: Keetmiskatse

Particleboards - Determination of moisture resistance -
Part 1: Boil test

EESTI STANDARDI EESSÕNA

NATIONAL FOREWORD

Käesolev Eesti standard EVS-EN 1087-1:2001 sisaldab Euroopa standardi EN 1087-1:1995 ingliskeelset teksti.

Standard on kinnitatud Eesti Standardikeskuse 22.11.1999 käskkirjaga ja jõustub sellekohase teate avaldamisel EVS Teatajas.

Euroopa standardimisorganisatsioonide poolt rahvuslikele liikmetele Euroopa standardi teksti kättesaadavaks tegemise kuupäev on 06.02.1995.

Standard on kättesaadav Eesti standardiorganisatsioonist.

This Estonian standard EVS-EN 1087-1:2001 consists of the English text of the European standard EN 1087-1:1995.

This standard is ratified with the order of Estonian Centre for Standardisation dated 22.11.1999 and is endorsed with the notification published in the official bulletin of the Estonian national standardisation organisation.

Date of Availability of the European standard text 06.02.1995.

The standard is available from Estonian standardisation organisation.

ICS 79.060.20

Descriptors: Particleboard, moisture resistance, testing

English version

Particleboards

Determination of moisture resistance

Part 1: Boil test

Panneaux de particules; détermination de la résistance à l'humidité. Partie 1: Essai à l'eau bouillante

Spanplatten; Bestimmung der Feuchtebeständigkeit. Teil 1: Kochprüfung

This European Standard was approved by CEN on 1994-10-31.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard was prepared by the Technical Committee CEN/TC 112 "Woodbased panels" of which the secretariat is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by August 1995, and conflicting national standards shall be withdrawn at the latest by August 1995.

According to the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, United Kingdom.

1 Scope

This European Standard specifies a method of test for evaluating the bond quality of particleboards, intended for use in humid conditions according to option 2 of EN 312-5 and EN 312-7.

2 Normative references

This European Standard incorporates, by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references, the latest edition of the publication referred to applies.

EN 312-5 Particleboards — Specifications — Part 5: Requirements for load-bearing boards for use in humid conditions¹⁾

EN 312-7 Particleboards — Specifications — Part 7: Requirements for heavy duty load-bearing boards for use in humid conditions¹⁾

EN 314-2 Plywood — Bonding quality — Part 2: Requirements

EN 319 Particleboards and fibreboards — Determination of tensile strength perpendicular to the plane of the board

EN 325 Wood-based panels — Determination of dimensions of test pieces

EN 326-1 Wood-based panels — Sampling, cutting and inspection — Part 1: Sampling and cutting of test pieces and expression of test results
