

Tulekindlad isoleermaterjalid. Osa 5: Külmpurunemistugevuse määramine

Insulating refractory products - Part 5: Determination
of cold crushing strength

EESTI STANDARDI EESSÕNA

NATIONAL FOREWORD

Käesolev Eesti standard EVS-EN 1094-5:2000 sisaldab Euroopa standardi EN 1094-5:1995 ingliskeelset teksti. Käesolev dokument on jõustatud 11.01.2000 ja selle kohta on avaldatud teade Eesti standardiorganisatsiooni ametlikus väljaandes. Standard on kättesaadav Eesti standardiorganisatsioonist.	This Estonian standard EVS-EN 1094-5:2000 consists of the English text of the European standard EN 1094-5:1995. This document is endorsed on 11.01.2000 with the notification being published in the official publication of the Estonian national standardisation organisation. The standard is available from Estonian standardisation organisation.
--	---

Käsitlusala: See standardi osa esitab meetodi tulekindla profiilse isoleertoote külmpurunemistugevuse määramiseks.	Scope:
--	----------------------

ICS 81.080

Võtmesõnad: füüsikalised teimid, keskkonnateimid, kindlaksmääramine, purunemistugevus, tulekindlad materjalid, tulekindlad profiilmaterjalid, tulekindlad profiilsed isoleertooted

Hinnagrupp D

ICS 81.080

Descriptors: Refractory products, insulating refractory products, testing.

English version

Insulating refractory products
Part 5: Determination of cold crushing strength

Produits réfractaires isolants; méthodes
d'essai. Partie 5: Détermination de la
résistance à l'écrasement

Feuerfeste Erzeugnisse für Isolations-
zwecke. Teil 5: Bestimmung der Kalt-
druckfestigkeit

This European Standard was approved by CEN on 1995-07-10.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 187 'Refractory products and materials', the Secretariat of which is held by BSI.

Reproducibility and repeatability data are not available, but may be given in a subsequent edition.

The EN 1094 series of standards 'Insulating refractory products' comprises the following Parts:

Part 1 Terminology for ceramic fibre products

Part 2 Classification of shaped products

Part 3 Classification of ceramic fibre products

Part 4 Determination of bulk density and true porosity of shaped products

Part 5 Determination of cold crushing strength of shaped products

Part 6 Determination of permanent change in dimensions on heating of shaped products

Part 7 Methods of test for ceramic fibre products

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, and conflicting national standards withdrawn, by February 1996 at the latest.

In accordance with the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard:

Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
