### Furniture

## Cribs and cradles for domestic use

Part 1: Safety requirements

Meubles; berceaux à usage domestique.

Partie 1: Exigences de sécurité

Möbel; Krippen und Wiegen für den Wohnbereich. Teil 1: Sicherheitstechnische Anforderungen

This European Standard was approved by CEN on 1996-02-09.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

#### **Foreword**

This European Standard has been prepared by the Technical Committee CEN/TC 207 "Furniture", of which the secretariat is held by IBN.

The text was prepared by CEN/TC 207/WG1 "Domestic furniture", the secretariat of which is held by UNI and in particular by its TG3 "Children's and nursery furniture", the secretariat of which is held by IBN. This European Standard forms part of a series of standards on requirements and test methods for children's and nursery furniture.

This European Standard contains two parts:

- EN 1130-1 "Cribs/cradles for domestic use Part 1 : Safety requirements"
- EN 1130-2 "Cribs/cradles for domestic use Part 2 : Test methods"

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 1996, and conflicting national standards shall be withdrawn at the latest by September 1996.

According to the CEN/CENELEC Internal regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

2

## 1 Scope

This part of European Standard EN 1130 specifies safety requirements for cribs/cradles for domestic use.

NOTE: If other items are added to the cribs/cradles, these should comply with the relevant product standards.

#### 2 Normative references

This European Standard incorporates, by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.

EN 71-1 Safety of toys - Part 1: Mechanical and physical properties

EN 71-3 Safety of toys - Part 3: Migration of certain elements

EN 1130-2:1996: Furniture - Cribs and cradles for domestic use - Part 2: Test methods

#### 3 Definition

For the purposes of this standard the following definitions apply:

#### 3.1 crib/cradle

Cribs/cradles are pieces of furniture used to lay infants in until these are able to sit, kneel or to pull themselves up. The internal length of the bed base is maximum 900 mm. Cribs/cradles may consist of a body and a frame, in which case they may be balanced. The body of swinging, balancing or rocking cribs/cradles cannot be used without their frame.

#### 3.2 access zones

Access zones specify the case, intensity and frequency of access to parts of a product taking the intended use into consideration.

## 3.3 access zone 1

Consists of the space around the crib/cradle, to which an infant sitting on the mattress can get access.

#### 3.4 access zone 2

Consists of the space not covered by access zone 1.
