and carbide burs

## EESTI STANDARDI EESSÖNA

## NATIONAL FOREWORD

Käesolev Eesti standard EVS-EN ISO 3823-1:1999 sisaldb Euroopa standardi EN ISO 3823-1:1998 ingliskeelset teksti.	This Estonian standard EVS-EN ISO 3823-1:1999 consists of the English text of the European standard EN ISO 3823-1:1998.
Käesolev dokument on jõustatud 12.12.1999 ja selle kohta on avaldatud teade Eesti standardiorganisatsiooni ametlikus väljaandnes.	This document is endorsed on 12.12.1999 with the notification being published in the official publication of the Estonian national standardisation organisation.
Standard on kätesaadav Eesti standardiorganisatsioonist.	The standard is available from Estonian standardisation organisation.

<b>Käsitlusala:</b> Standard määrab kindlaks mõõtmed ja esitab nõuded kümnele köige enam kasutatavalte terastest ja karbiidist puuritüibile. Kaalutletud on käesoleva Euroopa standardi reguleerimisala laiendamist, et see hõlmaks ka teisi puuritüüpe. Teisi puurileade parameetreid, näiteks spiraalsoonega lõiketerasid, ristlõikeid, käesolev Euroopa standard ei käsitele. Neid käsitletakse tulevases Euroopa standardis.	<b>Scope:</b>
---	---------------

This European Standard was approved by CEN on 1998-11-20.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

## Foreword

International Standard

ISO 3823-1 : 1997 Dental rotary instruments – Burs – Part 1: Steel and carbide burs, which was prepared by ISO/TC 106 ‘Dentistry’ of the International Organization for Standardization, has been adopted by Technical Committee CEN/TC 55 ‘Dentistry’, the Secretariat of which is held by DIN, as a European Standard.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, and conflicting national standards withdrawn, by May 1999 at the latest.

In accordance with the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard:

Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

## Endorsement notice

The text of the International Standard ISO 3823-1 : 1997 was approved by CEN as a European Standard without any modification.

NOTE: Normative references to international publications are listed in Annex ZA (normative).

## 1 Scope

This part of ISO 3823 specifies dimensional and other relevant requirements for the 10 most commonly used shapes of steel and carbide burs, including a quality control for these instruments.

## 2 Normative references

The following standards contain provisions which, through reference in this text, constitute provisions of this part of ISO 3823. At the time of publication, the editions indicated were valid. All standards are subject to revision, and parties to agreements based on this part of ISO 3823 are encouraged to investigate the possibility of applying the most recent editions of the standards indicated below. Members of IEC and ISO maintain registers of currently valid International Standards.

ISO 1797-1:1992, *Dental rotary instruments — Shanks — Part 1: Shanks made of metals*.

ISO 2157:1992, *Dental rotary instruments — Nominal diameters and designation code number*.

ISO 3696:1987, *Water for analytical laboratory use — Specification and test methods*.

ISO 6360-1:1995, *Dental rotary instruments — Number coding system — Part 1: General characteristics*.

ISO 6360-2:1986, *Dental rotary instruments — Number coding system — Part 2: Shape and specific characteristics*.

ISO 8325:1985, *Dental rotary instruments — Test methods*.

## 3 Classification

Steel and carbide burs shall be classified, according to the material of the working part, into the following two types:

- Type 1: steel burs
- Type 2: carbide burs
