|---|---------------|
| Käsitlusala: Käesolev standard määrab lisaks normdokumendis EN 913 esitatud üldistele ohutusnõuetele kindlaks funktsionaalsed nõuded ja spetsiaalsed ohutusnõuded riistvõimlemises kasutatavatele röngastele. Standard on kohaldatav 3 tüüpi röngastele: kindla kõrgusega röngastele, muudetava kõrgusega röngastele ja muudetava kõrgusega liikuvatele röngastele. | Scope: |

sécurité, méthodes d'essai

Turngeräte – Ringeeinrichtungen –
Funktionelle und sicherheitstechnische
Anforderungen, Prüfverfahren

This European Standard was approved by CEN on 1998-07-01.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 136 "Sports, playground and other recreational equipment", the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by January 1999, and conflicting national standards shall be withdrawn at the latest by January 1999.

This European Standard is one of a package, each of which deals with a particular type or a particular group of equipment.

This European Standard should be read in conjunction with EN 913.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

1 Scope

This standard specifies functional requirements (see clause 4) and specific safety requirements (see clause 5) for gymnastic hanging rings in addition to the general safety requirements in EN 913.

This standard is applicable to 3 types of gymnastic hanging rings (see table 1).

2 Normative references

This European Standard incorporates by dated or undated references, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.

EN 913:1996

Gymnastic equipment – General safety requirements and test methods

3 Types and classes

3.1 Classification

Gymnastic equipment with hanging rings shall be classified by the design (types) as shown in table 1.

Table 1: Classification

| Type | Description | Example |
|------|-------------------------------------|----------|
| 1 | Fixed height ring set | Figure 1 |
| 2 | Adjustable height ring set | Figure 2 |
| 3 | Adjustable height swinging ring set | Figure 3 |
