3 Terms and definitions

For the purposes of this document, the terms and definitions given in EN 923:2005+A1:2008 and the following apply.

3.1

covering

flexible resilient or textile floor covering or wall covering

3.2

adhesive for coverings

adhesive which is intended to produce firm and durable bonds between coverings and various substrates

4 Principle

The bonding performance of a floor or wall covering/adhesive combination is assessed under exposure to a static shear force by monitoring the time until failure of the test pieces.

5 Apparatus and materials

5.1 Notched trowel, (for the shape of the notch, see Figure 1) with dimensions *a*, *b* and *c* specified by the adhesive manufacturer.
