April 1997

ICS 79.040

Descriptors: Timber, dimensions, measurement.

English version

Round and sawn timber Method of measurement of dimensions Part 1: Sawn timber

Bois ronds et bois sciés – Méthode de mesure des dimensions – Partie 1: Bois sciés

Rund- und Schnittholz – Verfahren zur Messung der Maße – Teil 1: Schnittholz

This European Standard was approved by CEN on 1997-03-05.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Switzerland, and the United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC175 "Round and sawn timber", the Secretariat of which is held by AFNOR.

This standard is one of a series, being methods of measurement for round timber and sawn timber.

Other standards in this series are :

- prEN 1309 – 2 : Round and sawn timber - Method of measurement of dimensions – Part 2: Round timber.
EN 1310 : Round and sawn timber - Round Method of measurement of features.
EN 1311 : Round and sawn timber - Method of measurement of biological degrade.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 1997, and conflicting national standards shall be withdrawn at the latest by October 1997.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

1 Scope

This European Standard specifies the methods of measuring dimensions of sawn timber .

This standard applies to hardwood and softwood sawn timber, both square edged and unedged. This standard does not apply to tropical timber.

2 Normative references

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.
