This European Standard was approved by CEN on 1994-10-25. CEN members are bound to comply with the CEN/CENELEC Internal
Regulations which stipulate the conditions for giving this European Standard the status of a national standard without
any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to
the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language
made by translation under the responsibility of a CEN member into its own language and notified to the Central
Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland,
Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The Technical Board of CEN had decided to submit the international standard ISO 9707 "Information and documentation - Statistics on the production and distribution of books, newspapers, periodicals and electronic publications" to the CEN Members for the formal vote. The result was positive.

Annex ZA contains an A-deviation and is for information.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 1995, and conflicting national standards shall be withdrawn at the latest by June 1995.

In accordance with the CEN/CENELEC Internal Regulations the following countries are bound to implement this European Standard : Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Endorsement notice

The text of the International Standard ISO 9707:1991 was adopted by CEN as a European Standard without any modification.

Annex ZA (informative)
A-deviation

A-deviation: National deviation due to regulations, the alteration of which is for the time being outside the competence of the CEN/CENELEC member.

This European Standard does not fall under any Directive of the EC.

In the relevant CEN/CENELEC countries these A-deviations are valid instead of the provisions of the European Standard until they have been removed.

<u>Clause</u>	<u>Deviation</u>
3.4.1'	<p>Statistics on production Germany: Gesetz über eine Pressestatistik vom 01. April 1975 Bekanntmachung der Neufassung des Gesetzes über die Statistik im Produzierenden Gewerbe vom 30. Mai 1980</p> <p>The classification is incompatible with the one established by the Deutsche Bibliothek and used for the regular classification of the entire annual book production in Germany, when entered into the "Deutsche Nationalbibliographie", this discrepancy even slightly grew since 1st January 1993 since the classification of the "Deutsche Bibliographie" includes 2 new groups: "Comics/Cartoons", "Esoterica/Parasciences"</p>
4	<p>Statistics on newspapers and periodicals Germany: Gesetz über eine Pressestatistik vom 01. April 1975</p>
6	<p>Statistics on the publishing industry Germany: The differentiation between "publishers of printed materials", microform publishers", "electronic publishers" and "printers" is difficult to make because individual entities are often difficult to exclusively assign to one of these groups.</p> <p>More important, there is no compatibility of these elections of this ISO standard with the classification prescribed by the German Federal Statistics Office (Statistisches Bundesamt) in the framework of the EC-wide NACE by the EC Statistical Office. This grouping distinguishes publishing houses into book publishers (excluding address directory publishers), address directory publishers and music publishers.</p>

6.2.4

Reporting of statistics on printing houses

Germany: "Bekanntmachung der Neufassung des Gesetzes über die Statistik im Produzierenden Gewerbe" vom 30. Mai 1980.

The statistics of printers are fixed by law in Germany. Printing houses with more than 20 employees have to contribute to the "Monthly Review" and the "Quarterly Production Survey" of the Statistical Offices. The basis for this is EC law, i.e. the systematics of economic branches (NACE) and in the goods classification (PRODCOM), which are in turn based on the international classification of UN and EC.

In addition to the "Gesetz über die Statistik im Produzierenden Gewerbe (ProdGewG) in der Fassung der Bekanntmachung vom 30. Mai 1990" (BGBl. I S. 641) in connection with Artikel 3 § 1 der Statistikanpassungsverordnung vom 26. Mai 1991 (BGBl. I S. 846) and Artikel 2 § 2 of the "Verordnung zur Änderung statistischer Rechtsvorschriften (Statistikbereinigungsverordnung) vom 14. September 1984" (BGBl. I S. 1247), the "Gesetz über die Statistik für Bundeszwecke (Bundesstatistikgesetz - BStatG) vom 22. Januar 1987" (BGBl. I S. 462, 565), modified by Artikel 2 des Gesetzes vom 17. Dezember 1990 (BGBl. I S. 2837) has to be considered.
