Foreword

This European Standard (EN 14916:2005) has been prepared by Technical Committee CEN/TC 194 “Utensils in contact with food”, the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by May 2006, and conflicting national standards shall be withdrawn at the latest by May 2006.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Introduction

European draft standards on safety and performance requirements for items of cookware are currently under study. These drafts are related to cookware for use on top of a stove, cooker or hob, to cookware for use on induction plates, to ovenware and to cookware for microwave ovens.

In these drafts, it is required that cookware or its packaging be labelled with information on the heating source types for which the products are suitable.

The aim of the present document is to establish graphical symbols which should be used for this purpose.
