Child use and care articles - Baby carriers - Safety requirements and test methods - Part 2: Soft carrier

Articles de puériculture - Porte-bébés - Exigences de sécurité et méthodes d'essai - Partie 2 : Porte-bébés souples

Artikel für Säuglinge und Kleinkinder - Kindertragen - Sicherheitsanforderungen und Prüfverfahren - Teil 2: Tragen ohne Gestell

This European Standard was approved by CEN on 21 November 2015.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

European foreword

This document (EN 13209-2:2015) has been prepared by Technical Committee CEN/TC 252 “Child use and care articles”, the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 2016, and conflicting national standards shall be withdrawn at the latest by June 2016.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This document supersedes EN 13209-2:2005.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association.

According to the CEN-CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

1 Scope

This European Standard specifies the safety requirements and test methods for soft carriers without a framed support incorporating integral leg openings designed to carry a child when attached to the carer's torso.

Soft carriers are designed to allow the carer a hands free operation when standing and/or walking. These soft carriers are for use up to a maximum weight of 15 kg. If the soft carrier has functions not covered in this European Standard, reference should be made to the relevant European Standard.

2 Normative references

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 71-2:2011+A1:2014, *Safety of toys - Part 2: Flammability*

EN 71-3:2013+A1:2014, *Safety of toys - Part 3: Migration of certain elements*

3 Terms and definitions

For the purposes of this document, the following terms and definitions apply.

3.1 soft carrier

product without a framed support, incorporating an integral opening for each of the child's legs, designed to carry the child when the product is attached to the carer's torso

3.2 carer's attachment system

fastenings, straps, belts or similar parts which are fitted to or are part of the soft carrier for the purpose of securing the product to the carer's torso

3.3 integral leg openings

fully bound openings for each of the child's legs which may be adjustable, which exist in the product and are not formed when installing the soft carrier on the carer's torso

4 Test equipment

4.1 Test sphere

Sphere made from a hard smooth material of diameter (120 ± 2) mm and a mass of 2,27 kg.
