

## **Infotehnoloogia. Märgistik ja kodeerimine teleksiteenuste koostööks**

Information technology - Character repertoire and  
coding for interworking with Telex services

## EESTI STANDARDI EESSÖNA

## NATIONAL FOREWORD

Käesolev Eesti standard EVS-EN 1922:2000 sisaldb Euroopa standardi EN 1922:1997 ingliskeelset teksti.	This Estonian standard EVS-EN 1922:2000 consists of the English text of the European standard EN 1922:1997.
Käesolev dokument on jõustatud 19.07.2000 ja selle kohta on avaldatud teade Eesti standardiorganisatsiooni ametlikus väljaandes.	This document is endorsed on 19.07.2000 with the notification being published in the official publication of the Estonian national standardisation organisation.
Standard on kättesaadav Eesti standardiorganisatsioonist.	The standard is available from Estonian standardisation organisation.

<b>Käsitlusala:</b> Käesolev Euroopa standard spetsifitseerib kirjamärgistiku ja juhtimisfunktsioonid infovahetuseks teleksiteenuste kaudu. Ta on mõeldud kasutamiseks ja piiritlemiseks koos teiste Euroopa funktsionaalstandarditega, mis spetsifitseerivad kodeeritud märkide stringe kodeeritud informatsiooni vahetuseks infotöötlussüsteemide vahel teleksiteenuste kaudu. See standard spetsifitseerib kirjamärgistike kaks alternatiivvarianti: variandi A ladina kirjamärkidele ja variandi B kreeka kirjamärkidele.	<b>Scope:</b>

menarbeit mit Telex-Diensten

This European Standard was approved by CEN on 1997-08-15.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

## FOREWORD

This European Standard has been prepared by Technical Committee CEN/TC 304 "Character Set Technology", the secretariat of which is held by STRI.

This European Standard supersedes ENV 41504:1990 (drawn up by CEN/CENELEC/IT/WG-CSC).

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by March 1998, and conflicting national standards shall be withdrawn at the latest by March 1998.

This standard is available in English and German only.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

## 1 SCOPE

This European Standard specifies the graphic character repertoire and control functions relevant for information interchange via Telex services. It is intended to be used with and identified within other European functional standards that specify strings of coded characters for interchange of coded information between Information Processing Systems (IPS) via Telex services.

This standard specifies two alternative options of graphic character repertoires :

- option A for Latin graphic characters, and
- option B for Latin and Greek graphic characters.

NOTE: The assignment of characters to 3 of the code positions is outside the scope of this standard. Such assignment is subject to national or private agreement.

## 2 NORMATIVE REFERENCES

This European Standard incorporates by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this Standard only when incorporated by amendment or revision. For undated references the latest edition of the publication referred to applies.
