- EN 1929-4, Basket trolleys — Part 4: Requirements and tests for basket trolleys with additional goods carrying facility(ies), with or without a child carrying facility intended to be used on passenger conveyors
- prEN 1929-6, Basket trolleys — Part 6: Requirements, tests and inspection for basket trolleys with base trays for Do It Yourself markets intended to be used on passenger conveyors
- EN 1929-7, Basket trolleys — Part 7: Requirements and tests for basket trolleys with baby and child carrying facilities

## 1 Scope

This document specifies requirements for the construction, performance, testing and safety specifications for general purpose self service basket trolleys, fitted with a baby and/or child carrying facility(ies) for use by customers of self service stores to carry goods.

This document applies to basket trolleys conforming to EN 1929-1 with the following arrangements:

- One baby carrying facility;
- Two baby carrying facilities;
- One baby carrying facility, one child carrying facility;
- Two child carrying facilities.

This document applies to manually driven trolleys that are not intended for use on passenger conveyors.

The technical characteristics of accessories (see 3.8 of EN 1929-1:1998) are not covered by this document.

## 2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.
