Lennunduse ja kosmonautika seeria. Alumiiniumist ja alumiiniumisulamist surve töötlusmeetodil valmistatavad tooted. Tehnilised andmed. Osa 3: Varbmaterjal ja valtsprofiilmetall

Aerospace series - Aluminium and aluminium alloy wrought products - Technical specification - Part 3: Bar and section

EESTI STANDARDI EESSÕNA

NATIONAL FOREWORD

See Eesti standard EVS-EN 2070-3:2000 sisaldab Euroopa standardi EN 2070-3:1989 ingliskeelset teksti.	This Estonian standard EVS-EN 2070-3:2000 consists of the English text of the European standard EN 2070-3:1989.
Standard on jõustunud sellekohase teate avaldamisega EVS Teatajas.	This standard has been endorsed with a notification published in the official bulletin of the Estonian Centre for Standardisation.
Euroopa standardimisorganisatsioonid on teinud Euroopa standardi rahvuslikele liikmetele kätesaadavaks 27.12.1989.	Date of Availability of the European standard is 27.12.1989.
Standard on kätesaadav Eesti Standardikeskusest.	The standard is available from the Estonian Centre for Standardisation.

Tagasisidet standardi sisu kohta on võimalik edastada, kasutades EVS-i veebilehel asuvat tagasiside vormi või saates e-kirja meiliaadressile standardiosakond@evs.ee.

This European Standard was accepted by CEN on 1988-07-20. CEN members are bound to comply with the requirements of CEN Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to CEN Central Secretariat has the same status as the official versions.

CEN members are the national standards organizations of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxemburg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Central Secretariat : Rue Bréderode 2, B—1000 Bruxelles

Brief history

This European Standard has been prepared by the European Association of Aerospace Manufacturers (AECMA).

After inquiries and votes carried out in accordance with the rules of this Association, this Standard has successively received the approval of the National Associations and the Official Services of the member countries of AECMA, prior to its presentation to CEN.

According to the Common CEN/CENELEC Rules, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxemburg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

- 10 Back end defect and peripherical coarse grain zone
- 11 Stress corrosion testing
- 12 Special tests
- 13 Marking

Annex A

1 Scope and field of application

The present standard defines the particular requirements for bar and section in aluminium and aluminium alloys produced by extrusion, drawing or rolling.

This standard shall be used in conjunction with EN 2070-1.
