#### **Foreword**

This Technical Report was prepared by the Technical Committee CENELEC TC 72, Automatic controls for household use.

Following BT decision D129/C062, the text of the draft was submitted to vote in accordance with the Internal Regulations, Part 2, Subclause 11.4.3.3 (simple majority) and was approved by CENELEC as CLC/TR 50455 on 2008-03-14.

This Technical Report is a revision of R072-001:2000, *List of interpretations on the EN 60730 series "Automatic electrical controls for household and similar use"*, which was based on document CLC/TC72/SEC0072L/INF. Following comments from DK during the voting procedure this Technical Report has been updated to include CLC/TC72/SEC0072M/INF issued in January 2008.

Interpretations have been grouped according to different standards. For each standard, the grouping follows the order of the clauses and subclauses.

Each interpretation is identified by:

- the place and date of the meeting;
- the document number of the minutes and agenda item;
- the number of the reference document if applicable.

if net andard in This Technical Report will be updated annually, if necessary. Once an interpretation is superseded by inclusion of suitable wording in the relevant standard in the EN 60730 series, the interpretation will be withdrawn from this document.
