

ICS

English version

**Classification of grades of steel - Examples of classification  
related to European standards**

Classification des nuances d'acier - Exemples de  
classification liée aux normes européennes

Einteilung der Stähle - Beispiele für die Einteilung in  
Europäischen Normen

This CEN Report was approved by CEN on 1 October 1999. It has been drawn up by the Technical Committee ECISS/TC 6.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

EUROPEAN COMMITTEE FOR STANDARDIZATION  
COMITÉ EUROPÉEN DE NORMALISATION  
EUROPÄISCHES KOMITEE FÜR NORMUNG

**Central Secretariat: rue de Stassart, 36 B-1050 Brussels**

## Foreword

This document has been prepared as a technical report in order to replace the annexes A and B of the European standard EN 10020 : 1988.

This document has been prepared by ECISS /TC 6, "Definition and classification of steel".

This document is a preview generated by EVS

## 1 Scope

The present CEN report establishes a classification between alloy and non alloy steels which are indicated in the existing European Standards as function of the quality classes defined in prEN 10020.

## 2 Normatives references

prEN 10020-<sup>1)</sup>, *Definition and classification of grades of steel*

EN 10016-2 : 1994, *Non alloy steel rod for drawing and/or cold rolling – Part 2 : Specific requirements for general purposes rod*

EN 10016-3 : 1994, *Non alloy steel rod for drawing and/or cold rolling – Part 3 : Specific requirements for rimmed and rimmed substitute low carbon steel rod*

EN 10016-4 : 1994, *Non alloy steel rod for drawing and/or cold rolling – Part 4 : Specific requirements for rod for special applications*

EN 10025 : 1990 + A1 : 1993, *Hot rolled products of non-alloy structural steels – Technical delivery conditions*

EN 10028-2 : 1992, *Flat products made of steels for pressure purposes – Part 2 : Non-alloy and alloy steels with specified elevated temperature properties*

EN 10028-3 : 1992, *Flat products made of steels for pressure purposes – Part 3 : Weldable fine grain steels, normalized*

EN 10028-4 : 1994, *Flat products made of steels for pressure purposes – Part 4 : Nickel alloy steels with specified low temperature properties*

EN 10028-5 : 1996, *Flat products made of steels for pressure purposes – Part 5 : Weldable fine grain steels, thermomechanically rolled*

EN 10028-6 : 1996, *Flat products made of steels for pressure purposes – Part 6 : Weldable fine grain steels, quenched and tempered*

EN 10028-7 : 1999, *Flat products made of steels for pressure purposes – Part 7 : Stainless steels*

ENV 10080 : 1995, *Steel for the reinforcement of concrete weldable ribbed reinforcing steel B 500 – Technical delivery conditions for bars, coils and weldable fabric*

EN 10083-1 : 1996, *Quenched and tempered steels – Part 1 : Technical delivery conditions for special steels*

EN 10083-2 : 1996, *Quenched and tempered steels – Part 2 : Technical delivery conditions for unalloyed quality steels*

EN 10083-3 : 1995, *Quenched and tempered steels – Part 3 : Technical delivery conditions for boron steels*

EN 10084 : 1998, *Case hardening steels – Technical delivery conditions*

EN 10087 : 1998, *Free-cutting steels – Technical delivery conditions for semi-finished products, hot-rolled bars and rods*

EN 10088-1 : 1995, *Stainless steels – Part 1 : List of stainless steels*
