**Aerospace series
Representation of rivets
on drawings for
aerospace equipment**

Série aérospatiale
Représentation des rivets
sur les dessins de
matériels aérospatiaux

Luft- und Raumfahrt
Darstellung von Nieten
in Zeichnungen von
Luft- und Raumfahrtgerät

This European Standard was accepted by CEN on 1986-08-12. CEN members are bound to comply with the requirements of CEN Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to CEN Central Secretariat has the same status as the official versions.

CEN members are the national standards organizations of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Brief history

This draft European Standard has been prepared by the European Association of Aerospace Constructors (AECMA).

After enquiries and votes carried out in accordance with the rules of this Association it has successively received the approval of the National Associations and the Official Services of the member countries of AECMA, prior to its presentation to C.E.N.

According to the Common CEN/CENELEC Rules, following countries are bound to implement this European Standard:

Belgium, Germany, Italy, Netherlands, Spain, United Kingdom.
