Aerospace series - Elements of electrical and optical connection - Test methods - Part 6402: Optical elements - Shock

Aerospace series - Elements of electrical and optical connection - Test methods - Part 6402: Optical elements - Shock

EESTI STANDARDI EESSÕNA **NATIONAL FOREWORD**

Käesolev Eesti standard EVS-EN 2591-6402:2002 sisaldab Euroopa standardi EN 2591-6402:2001 ingliskeelset teksti.	This Estonian standard EVS-EN 2591-6402:2002 consists of the English text of the European standard EN 2591-6402:2001.
Käesolev dokument on jõustatud 19.06.2002 ja selle kohta on avaldatud teade Eesti standardiorganisatsiooni ametlikus väljaandes.	This document is endorsed on 19.06.2002 with the notification being published in the official publication of the Estonian national standardisation organisation.
Standard on kättesaadav Eesti standardiorganisatsioonist.	The standard is available from Estonian standardisation organisation.

Käsitlusala: This standard specifies a method of assessing the ability of optical connection elements and fibre optic couplers to withstand specified severities of mechanical shock.	**Scope:** This standard specifies a method of assessing the ability of optical connection elements and fibre optic couplers to withstand specified severities of mechanical shock.

ICS 49.060

Võtmesõnad: elec, electrical, electrical components, electrical installations, fasteners, modules, optical, optical elements, optical waveguides, resistance, shock, shock resistance, shocks, space transport, specification (approval), specifications, testing, testing conditions

Aerospace series - Elements of electrical and optical connection - Test methods - Part 6402: Optical elements - Shock

Série aérospatiale - Organes de connexion électrique et optique - Méthodes d'essais - Partie 6402: Organes optiques - Chocs

Luft- und Raumfahrt - Elektrische und optische Verbindungselemente - Prüfverfahren - Teil 6402: Optische Elemente - Stöße

This European Standard was approved by CEN on 5 August 2001.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by the European Association of Aerospace Manufacturers (AECMA).

After inquiries and votes carried out in accordance with the rules of this Association, this Standard has received the approval of the National Associations and the Official Services of the member countries of AECMA, prior to its presentation to CEN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 2002, and conflicting national standards shall be withdrawn at the latest by June 2002.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.
