## EESTI STANDARDI EESSÕNA

## NATIONAL FOREWORD

See Eesti standard EVS-EN 28651-1:1999 sisaldab Euroopa standardi EN 28651-1:1992 ingliskeelset teksti.	This Estonian standard EVS-EN 28651-1:1999 consists of the English text of the European standard EN 28651-1:1992.
Standard on jõustunud sellekohase teate avaldamisega EVS Teatajas.	This standard has been endorsed with a notification published in the official bulletin of the Estonian Centre for Standardisation.
Euroopa standardimisorganisatsioonid on teinud Euroopa standardi rahvuslikele liikmetele kätesaadavaks 18.08.1992.	Date of Availability of the European standard is 18.08.1992.
Standard on kätesaadav Eesti Standardikeskusest.	The standard is available from the Estonian Centre for Standardisation.

Tagasisidet standardi sisu kohta on võimalik edastada, kasutades EVS-i veebilehel asuvat tagasiside vormi või saates e-kirja meiliaadressile [standardiosakond@evs.ee](mailto:standardiosakond@evs.ee).

EUROPEAN STANDARD

EN 28651-1:1992

NORME EUROPÉENNE

EUROPÄISCHE NORM

August 1992

UDC 681.3.04:800.92

Descriptors: Data processing, graphic data processing, computer interfaces, graphical kernel system, programming languages, FORTRAN

English version

**Information processing systems - Computer graphics - Graphical Kernel System (GKS) language bindings - Part 1: FORTRAN (ISO 8651-1:1988)**

Systèmes de traitement de l'information -  
Infographie - Interfaces langage avec GKS -  
Partie 1: FORTRAN (ISO 8651-1:1988)

Graphische Systeme der Informationsverarbeitung  
- Sprachbindungen für das Graphische Kernsystem  
(GKS) - Teil 1: FORTRAN (ISO 8651-1:1988)

This European Standard was approved by CEN on 1992-08-13. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

## FOREWORD

The Technical Board has decided to submit the

International Standard 8651-1:1988 "Information processing systems - Computer graphics - Graphical Kernel System (GKS) language bindings - Part 1: FORTRAN"

for Formal Vote. The standard was accepted.

At present the Standard exists in the English and French versions only.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by February 1993 and conflicting national standards shall be withdrawn at the latest by February 1993.

According to the CEN/CENELEC Common Rules, the following countries are bound to implement this standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, United Kingdom.

## ENDORSEMENT NOTICE

The text of the ISO 8651-1:1988 was approved by CEN as a European Standard without any modification.

## **Foreword**

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council. They are approved in accordance with ISO procedures requiring at least 75 % approval by the member bodies voting.

International Standard ISO 8651-1 was prepared by Technical Committee ISO/TC 97, *Information processing systems*.

Users should note that all International Standards undergo revision from time to time and that any reference made herein to any other International Standard implies its latest edition, unless otherwise stated.

**Information processing systems —  
Computer graphics — Graphical Kernel  
System (GKS) language bindings —**

**Part 1 :  
FORTRAN**

**0 Introduction**

The Graphical Kernel System (GKS), the functional description of which is given in ISO 7942, is specified in a language independent manner and needs to be embedded in language dependent layers (language bindings) for use with particular programming languages. The purpose of this part of ISO 8651 is to define a standard binding for the FORTRAN computer programming language.

## **1 Scope and field of application**

ISO 7942 (GKS) specifies a language independent nucleus of a graphics system. For integration into a programming language, GKS is embedded in a language dependent layer obeying the particular conventions of that language. This part of ISO 8651 specifies such a language dependent layer for the FORTRAN language.
