FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 3117 was developed by Technical Committee ISO/TC 14, *Shafts for machinery and accessories*, and was circulated to the member bodies in June 1976.

It has been approved by the member bodies of the following countries :

Belgium	Germany	Poland
Brazil	Hungary	Romania
Canada	India	South Africa, Rep. of
Czechoslovakia	Italy	Spain
Denmark	Japan	Switzerland
Finland	Korea, Rep. of	United Kingdom
France	Mexico	U.S.S.R.

No member body expressed disapproval of the document.
