## Foreword

The text of the International Standard IEC 60204-31:1996, prepared by the Technical Committee IEC TC 44, Safety of machinery - Electrotechnical aspects, together with common modifications prepared by the Technical Committee CENELEC TC 44X, was submitted to the Unique Acceptance Procedure and was approved by CENELEC as EN 60204-31 on 1998-08-01.

This European Standard supersedes EN 60204-3-1:1990.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1999-06-01
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 2002-06-01

This part of EN 60204 is to be used in conjunction with EN 60204-1:1992, Safety of machinery - Electrical equipment of machines - Part 1: General requirements.

This part supplements or modifies the corresponding clauses in EN 60204-1 so as to convert it into the European Standard dealing with requirements for the electrical equipment of sewing machines, units and systems.

Where a particular subclause of part 1 is not mentioned in this part 31, that subclause applies as far as is reasonable. Where this part states "addition", "modification" or "replacement", the relevant text in part 1 is to be adapted accordingly.

Subclauses which are additional to those in part 1 are numbered from 101.

Annexes which are additional to those in part 1 are lettered AA, BB, etc. Annexes designated "normative" are part of the body of the standard. Annexes designated "informative" are given for information only. In this standard, annexes AA and ZA are normative and annex BB is informative. Annex ZA has been added by CENELEC.

This part of EN 60204 fulfils safety objectives of the Low Voltage Directive (73/23/EEC) and the relevant electrotechnical Essential Requirements of the Machinery Directive (89/392/EEC) and the Essential Requirements of the EMC Directive (89/336/EEC).
