## Foreword

The text of document 64/1573/FDIS, future edition 2 of IEC 60364-7-709, prepared by IEC TC 64, Electrical installations and protection against electric shock, was submitted to the IEC-CENELEC parallel vote.

A draft amendment, prepared by SC 64A, Protection against electric shock, of Technical Committee CENELEC TC 64, Electrical installations and protection against electric shock, was submitted to the formal vote.

The combined texts were approved by CENELEC as HD 60364-7-709 on 2009-04-01.

In this standard, the common modifications to the International Standard are indicated by a vertical line in the left margin of the text.

The following dates were fixed:

- latest date by which the existence of the HD has to be announced at national level (doa) 2009-10-01
- latest date by which the HD has to be implemented at national level by publication of a harmonized national standard or by endorsement (dop) 2010-04-01
- latest date by which the national standards conflicting with the HD have to be withdrawn (dow) 2012-04-01

For this Harmonization Document, the informative Annex C of IEC 60364-7-709:2007 shall be disregarded and has been replaced by the normative Annex ZA, *Special national conditions*; and the informative Annex ZB, *A-deviations*.

Annexes ZA and ZB have been added by CENELEC.

### **Introduction**

The requirements of this part of HD 60364 supplement, modify or replace certain of the general requirements contained in Parts 1 to 6 of HD 60364.

The clause numbering appearing after 709 refers to the corresponding parts or clauses of HD 60364, Parts 1 to 6. Numbering of clauses does not, therefore, necessarily follow sequentially. Numbering of figures and tables takes the number of this part followed by a sequential number.

The absence of reference to a part or a clause means that the general requirements contained in Parts 1 to 6 of HD 60364 are applicable.

### 709.1 Scope

The particular requirements specified in this part of HD 60364 apply only to circuits intended to supply pleasure craft or houseboats in marinas and similar locations.

NOTE 1 In this part "marina" means "marina and similar locations".

The particular requirements do not apply to the supply of house boats if they are directly supplied from the public network.

The particular requirements do not apply to the internal electrical installations of pleasure craft or house boats.

NOTE 2 For electrical installations of pleasure craft, see EN 60092-507.

NOTE 3 The electrical installations of house boats should comply with the general requirements of HD 60364, together with the relevant particular requirements of HD 60364-7.

For the remainder of the electrical installation of marinas and similar locations the general requirements of HD 60364 together with the relevant particular requirements of HD 60364-7 apply.

### 709.2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

### 709.3 Terms and definitions

For the purposes of this document, the following terms and definitions apply.

#### 709.3.1

##### **pleasure craft**

any boat, vessel, yacht, motor launch, houseboat or other floating craft used exclusively for sport or leisure

#### 709.3.2

##### **marina**

facility for the mooring of pleasure craft with fixed wharves, jetties, piers or a pontoon arrangement capable of berthing one or more pleasure craft

#### 709.3.3

##### **houseboat**

floating decked structure which is designed or adapted for use as a place of permanent residence often kept in one place on inland water
