Sound system equipment - Part 4: Microphones

#### EESTI STANDARDI EESSÕNA

#### NATIONAL FOREWORD

| See Eesti standard EVS-EN IEC 60268-4:2018 sisaldab Euroopa standardi EN IEC 60268-4:2018 ingliskeelset teksti.           | This Estonian standard EVS-EN IEC 60268-4:2018 consists of the English text of the European standard EN IEC 60268-4:2018.          |
|---|--|
| Standard on jõustunud sellekohase teate avaldamisega EVS Teatajas   | This standard has been endorsed with a notification published in the official bulletin of the Estonian Centre for Standardisation. |
| Euroopa standardimisorganisatsioonid on teinud<br>Euroopa standardi rahvuslikele liikmetele<br>kättesaadavaks 09.11.2018. | Date of Availability of the European standard is 09.11.2018.   |
| Standard on kättesaadav Eesti<br>Standardikeskusest.  | The standard is available from the Estonian Centre for Standardisation.  |

Tagasisidet standardi sisu kohta on võimalik edastada, kasutades EVS-i veebilehel asuvat tagasiside vormi või saates e-kirja meiliaadressile <u>standardiosakond@evs.ee</u>.

# EUROPEAN STANDARD NORME EUROPÉENNE EUROPÄISCHE NORM

### **EN IEC 60268-4**

November 2018

ICS 33.160.50

Supersedes EN 60268-4:2014

#### **English Version**

# Sound system equipment - Part 4: Microphones (IEC 60268-4:2018)

Equipements pour systèmes électroacoustiques - Partie 4: Microphones (IEC 60268-4:2018) Elektroakustische Geräte - Teil 4: Mikrofone (IEC 60268-4:2018)

This European Standard was approved by CENELEC on 2018-10-17. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

#### **European foreword**

The text of document 100/2992/CDV, future edition 6 of IEC 60268-4, prepared by IEC/TC 100 "Audio, video and multimedia systems and equipment" was submitted to the IEC-CENELEC parallel vote and approved by CENELEC as EN IEC 60268-4:2018.

The following dates are fixed:

- latest date by which the document has to be implemented at national (dop) 2019-07-17 level by publication of an identical national standard or by endorsement
- latest date by which the national standards conflicting with the document have to be withdrawn (dow) 2021-10-17

This document supersedes EN 60268-4:2014.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

#### **Endorsement notice**

The text of the International Standard IEC 60268-4:2018 was approved by CENELEC as a European Standard without any modification.

In the official version, for Bibliography, the following notes have to be added for the standards indicated:

| CISPR 22:2008             | NOTE | Harmonized as EN 55022:2010 (modified)         |
|---------------------------|------|--|
| IEC 60065:2014            | NOTE | Harmonized as EN 60065:2014 (modified)         |
| IEC 60958-4:2016 (series) | NOTE | Harmonized as EN 60958-4:2016 (series)         |
| IEC 61000-3-2:2014        | NOTE | Harmonized as EN 61000-3-2:2014 (not modified) |
| IEC 61000-3-3:2013        | NOTE | Harmonized as EN 61000-3-3:2013 (not modified) |
| IEC 61606 (series)        | NOTE | Harmonized as EN 61606 (series)                |
| IEC 61672-1:2013          | NOTE | Harmonized as EN 61672-1:2013 (not modified)   |

### Annex ZA

(normative)

# Normative references to international publications with their corresponding European publications

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

NOTE 1 Where an International Publication has been modified by common modifications, indicated by (mod), the relevant EN/HD applies.

NOTE 2 Up-to-date information on the latest versions of the European Standards listed in this annex is available here: www.cenelec.eu.

| <u>Publication</u> | Year | <u>Title</u>  | EN/HD        | <u>Year</u> |
|--------------------|------|---|--------------|-------------|
| CISPR 35 (mod)     | 2016 | Electromagnetic compatibility of multimedia equipment - Immunity requirements   | EN 55035     | 2017        |
| IEC 60268-1        | 1985 | Sound system equipment. Part 1: General   | HD 483.1 S2  | 1989        |

#### INTERNATIONAL ELECTROTECHNICAL COMMISSION

#### **SOUND SYSTEM EQUIPMENT -**

#### Part 4: Microphones

#### **FOREWORD**

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as "IEC Publication(s)"). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this IEC Publication may be the subject of patent rights. IEC shall not be held responsible for identifying any or all such patent rights.

International Standard IEC 60268-4 has been prepared by IEC technical committee 100: Audio, video and multimedia systems and equipment.

This sixth edition cancels and replaces the fifth edition published in 2014. This edition constitutes a technical revision.

This edition includes the following significant technical changes with respect to the previous edition:

- a) Subclause 19.4 on "pop" measurement replaces Annex C;
- b) new Annex D for noise measurements in the digital domain.

The text of this International Standard is based on the following documents:

| CDV          | Report on voting |
|--------------|------------------|
| 100/2992/CDV | 100/3109/RVC     |

Full information on the voting for the approval of this International Standard can be found in the report on voting indicated in the above table.

This document has been drafted in accordance with the ISO/IEC Directives, Part 2.

A list of all parts of the IEC 60268 series, under the general title *Sound system equipment*, can be found on the IEC website.

The committee has decided that the contents of this document will remain unchanged until the stability date indicated on the IEC website under "http://webstore.iec.ch" in the data related to the specific document. At this date, the document will be

- reconfirmed,
- withdrawn,
- · replaced by a revised edition, or
- amended.

n ma, A bilingual version of this publication may be issued at a later date.
