majapidamis- ja muuks taoliseks kasutuseks.  
Osa 2-13: Erinõuded niiskusanduritega  
juhtimisseadmetele**

Automatic controls for household and similar use  
-- Part 2-13: Particular requirements for humidity  
sensing controls

**EESTI STANDARDI EESSÕNA****NATIONAL FOREWORD**

Käesolev Eesti standard EVS-EN 60730-2-13:2008 sisaldb Euroopa standardi prEN 60730-2-13:2007 ingliskeelset teksti.  Standard on kinnitatud Eesti Standardikeskuse 24.03.2008 käskkirjaga ja jõustub sellekohase teate avaldamisel EVS Teatajas.  Euroopa standardimisorganisatsioonide poolt rahvuslikele liikmetele Euroopa standardi teksti kätesaadavaks tegemise kuupäev on 14.02.2008.  Standard on kätesaadav Eesti standardiorganisatsionist.	This Estonian standard EVS-EN 60730-2-13:2008 consists of the English text of the European standard prEN 60730-2-13:2007.  This standard is ratified with the order of Estonian Centre for Standardisation dated 24.03.2008 and is endorsed with the notification published in the official bulletin of the Estonian national standardisation organisation.  Date of Availability of the European standard text 14.02.2008.  The standard is available from Estonian standardisation organisation.

Automatische elektrische Regel- und  
Steuergeräte für den Hausgebrauch  
und ähnliche Anwendungen -  
Teil 2-13: Besondere Anforderungen  
an feuchtigkeitsempfindliche  
Regel- und Steuergeräte  
(IEC 60730-2-13:2006, modifiziert)

This European Standard was approved by CENELEC on 2007-10-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

## Foreword

The text of the International Standard IEC 60730-2-13:2006, prepared by IEC TC 72, Automatic controls for household use, together with the common modifications prepared by the Technical Committee CENELEC TC 72, Automatic controls for household use, was submitted to the formal vote and was approved by CENELEC as EN 60730-2-13 on 2007-10-01.

This European Standard supersedes EN 60730-2-13:1998 (+ corr. May 2000) + A1:1998 (+ corr. May 2000) + A2:2002 + A11:2005.

It incorporates amended requirements for electronic controls in Annex H.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2008-10-01
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 2010-10-01

This Part 2-13 is to be used in conjunction with EN 60730-1:2000 + A1:2004, Automatic electrical controls for household and similar use – Part 1: General requirements, and any subsequent amendments.

This Part 2-13 supplements or modifies the corresponding clauses in EN 60730-1 so as to convert that publication into the European Standard: Particular requirements for humidity sensing controls.

Where this Part 2-13 states "addition", "modification" or "replacement", the relevant requirement, test specification or explanatory matter in Part 1 shall be adapted accordingly.

Where no change is necessary, this Part 2-13 indicates that the relevant clause or subclause applies.

In this publication, the following print types are used:

- Requirements proper: in roman type.
- *Test specifications*: in italic type.
- Explanatory matter: in smaller roman type.

Subclauses, notes or items which are additional to those in Part 1 are numbered starting from 101, additional annexes are lettered AA, BB, etc.

---

## Endorsement notice

The text of the International Standard IEC 60730-2-13:2006 was approved by CENELEC as a European Standard with agreed common modifications as given below.

### COMMON MODIFICATIONS

#### 11 Constructional requirements

**Delete** Subclause 11.4.3.

#### 17 Endurance

##### 17.8.4.101

**Delete** the last sentence.

##### 17.16.102

**Delete** the text and **replace** by "Void".

#### Annex H Requirements for electronic controls

##### H.26 Electromagnetic compatibility (EMC) requirements – immunity

###### H.26.10 Ring wave test

**Delete** Subclauses H.26.10.5 and H.26.10.5.101 and **replace** both by "Void".

#### Annex AA Number of cycles

##### AA.2 Minimum number of cycles for independently mounted and in-line cord controls (applicable in Canada and the USA)

**Delete** this subclause (and the table).

## DISPOSITIFS DE COMMANDE ÉLECTRIQUE AUTOMATIQUES À USAGE DOMESTIQUE ET ANALOGUE –

### Partie 2-13: Règles particulières pour les dispositifs de commande sensibles à l'humidité

#### 1 Domaine d'application et références normatives

L'Article de la Partie 1 s'applique avec les exceptions suivantes:

##### 1.1 *Remplacement:*

La présente partie de la CEI 60730 s'applique aux dispositifs de commande électrique automatiques sensibles à l'humidité pour usage dans, sur ou en association avec des matériels à usage domestique ou analogue, y compris les dispositifs de commande électrique pour le chauffage, le conditionnement d'air et les applications analogues. Le matériel peut utiliser l'électricité, le gaz, le pétrole, des combustibles solides, l'énergie thermique solaire, etc. ou une combinaison de ceux-ci.

##### 1.1.1 *Remplacer la note après le deuxième alinéa par la nouvelle note suivante:*

Partout dans cette norme, le terme "matériel" comprend les appareils d'utilisation et les systèmes de commande.

##### 1.1.2 *Remplacement:*

La présente norme s'applique aux dispositifs de commande électrique automatiques, actionnés mécaniquement ou électriquement, qui commandent ou sont sensibles à la l'humidité.

##### 1.1.3 Ne s'applique pas.

#### 2 Définitions

L'Article de la Partie 1 s'applique avec les exceptions suivantes:

##### 2.2 Définitions des différents types de dispositifs de commande en fonction de l'utilisation

##### 2.2.19 *Addition:*

En général, un dispositif de commande sensible à l'humidité est un dispositif de commande de fonctionnement.

##### *Définitions complémentaires:*

##### 2.2.101

##### **dispositif de commande sensible à l'humidité**

dispositif de commande électrique automatique prévu pour maintenir l'humidité contrôlée au-dessus, au-dessous ou entre une(des) valeur(s) particulière(s)

##### 2.2.102

##### **humidistat d'ambiance**

dispositif de commande sensible à l'humidité incorporé ou pour montage indépendant et destiné à régler l'humidité d'une zone habitable

## AUTOMATIC ELECTRICAL CONTROLS FOR HOUSEHOLD AND SIMILAR USE –

### Part 2-13: Particular requirements for humidity sensing controls

#### 1 Scope and normative references

This clause of Part 1 is applicable except as follows:

##### 1.1 *Replacement:*

This part of IEC 60730 applies to automatic electrical humidity sensing controls for use in, on or in association with equipment for household and similar use, including controls for heating, air-conditioning and similar applications. The equipment may use electricity, gas, oil, solid fuel, solar thermal energy, etc. or a combination thereof.

##### 1.1.1 *Replace the note following the second paragraph with the following new note:*

Throughout this standard, the word "equipment" includes "appliance" and "control system".

##### 1.1.2 *Replacement:*

This standard applies to automatic electrical controls, mechanically or electrically operated, responsive to or controlling humidity.

##### 1.1.3 Not applicable.

#### 2 Definitions

This clause of Part 1 is applicable except as follows:

##### 2.2 Definitions of types of control according to purpose

##### 2.2.19 *Addition:*

In general, a humidity sensing control is an operating control.

*Additional definitions:*

##### 2.2.101

##### **humidity sensing control**

automatic electrical control which is either intended to keep the controlled humidity above, below or between a particular value(s)

##### 2.2.102

##### **room humidistat**

independently mounted or incorporated humidity sensing control intended to control the humidity of habitable space
