

Corrigendum to EN 60670-1:2005

English version

---

Annex ZB, Clause 12.9, United Kingdom

Replace the current text of the SNC "Boxes shall be provided with metal threads so as to ensure safety. Thread-forming or thread-cutting screws shall not be used" by the following:

With the exception of products within the scope of EN 60670-23, boxes shall be provided with metal threads so as to ensure safety and thread-forming or thread-cutting screws shall not be used
