<p>Käsitlusala: This part of this European Standard specifies the general requirements related to safety for the manufacture and testing of steel wire ropes. It shall be used in conjunction with the appropriate part of this standard which specifies the additional or deviating requirements related to the specific rope application. The hazards covered by this part are identified in clause 4. Any additional hazards related to the specific rope application are identified in the appropriate part of this standard. Annex A gives the type testing regimes for ropes produced in series. Annex ZA gives the relationship with EU-Directives. This standard applies to ropes which have been manufactured after the date of issue of the standard.</p>	<p>Scope: This part of this European Standard specifies the general requirements related to safety for the manufacture and testing of steel wire ropes. Steel wire ropes - Safety - Part 1: General requirements

Câbles en acier - Sécurité - Partie 1: Prescriptions
généralesDrahtseile aus Stahldraht - Sicherheit - Teil 1: Allgemeine
Anforderungen

This European Standard was approved by CEN on 12 November 2001.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
