This European Standard was approved by CEN on 1996-03-12 and is identical to the ISO Standard as referred to.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

Foreword

International Standard

ISO 8351-2:1994 Packaging – Method of specification for sacks – Sacks made from thermoplastic flexible film, which was prepared by ISO/TC 122 'Packaging' of the International Organization for Standardization, has been adopted by Technical Committee CEN/TC 261 'Packaging' as a European Standard.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, and conflicting national standards withdrawn, by February 1997 at the latest.

In accordance with the CEN/GENELEC Internal Regulations, the following countries are bound to implement this European Standard:

Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

Endorsement notice

The text of the International Standard ISO 8351-2:1994 was approved by CEN as a European Standard without any modification.

NOTE: Normative references to international publications are listed in Annex ZA (normative).

1 Scope

This part of ISO 8351 provides a checklist for the characteristics to be specified when ordering sacks made from thermoplastic flexible film. These ordering specifications cover the description of the sack and do not deal with quantitative performance requirements. This part of ISO 8351 is primarily intended for application to the types of sacks made from thermoplastic flexible film as specified in ISO 6590-2.

2 Normative references

The following standards contain provisions which, through reference in this text, constitute provisions of this part of ISO 8351. At the time of publication, the editions indicated were valid. All standards are subject to revision, and parties to agreements based on this part of ISO 8351 are encouraged to investigate the possibility of applying the most recent editions of the standards indicated below. Members of IEC and ISO maintain registers of currently valid International Standards.

ISO 6590-2:1986, *Packaging — Sacks — Vocabulary and types — Part 2: Sacks made from thermoplastic flexible film.*

ISO 6591-2:1985, *Packaging — Sacks — Description and method of measurement — Part 2: Empty sacks made from thermoplastic flexible film.*

3 Method of specification

3.1 General

When drawing up the specification of a sack made from thermoplastic flexible film for ordering purposes, customer and manufacturer shall consider each item in the following lists and, where relevant, mutually agree to include them in the ordering specifications at an appropriate level.

The format of the ordering specification shall be agreed upon between the customer and the manufacturer.

3.2 Description

3.2.1 Sack type

3.2.1.1 Open-mouth

- heat-sealed flat;
- heat-sealed gusseted;
- pasted flat hexagonal-bottom;
- pasted gusseted rectangular-bottom;
- heat-sealed with corner seals;
- other not specified above.

3.2.1.2 Valved (closed-mouth)

- valved heat-sealed flat;
- side-valved heat-sealed flat;
