This European Standard was approved by CEN on 1995-12-14.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Working Group 2 'Plywood' of Technical Committee CEN/TC 112 'Wood-based panels', the Secretariat of which is held by DIN.

The second Part of this European Standard is:

EN 313-2 Plywood; classification and terminology. Part 2: Terminology.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, and conflicting national standards withdrawn, by September 1996 at the latest.

In accordance with the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard:

Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

1 Scope

This European Standard gives a classification of plywood panels.

2 Classification

2.1 According to their general appearance

2.1.1 According to their construction

- a) Veneer plywood
- b) Wood core boards
 - Block board
 - Laminboard
- c) Composite plywood

2.1.2 According to their form and shape

- a) Flat
- b) Moulded

2.2 According to their principal characteristics

2.2.1 According to their durability

- a) for use in dry conditions
- b) for use in humid conditions
- c) for use in exterior conditions

2.2.2 According to their mechanical properties

2.2.3 According to their surface appearance

2.2.4 According to their surface condition

- a) unsanded panel
- b) sanded panel
- c) prefinished panel
- d) overlaid panel (decorative veneer, film, impregnated paper ...)

2.3 According to the ultimate user's requirements
