EESTI STANDARDI EESSÕNA

NATIONAL FOREWORD

See Eesti standard EVS-EN 13272-1:2019 sisaldab Euroopa standardi EN 13272-1:2019 ingliskeelset teksti.	This Estonian standard EVS-EN 13272-1:2019 consists of the English text of the European standard EN 13272-1:2019.
Standard on jõustunud sellekohase teate avaldamisega EVS Teatajas	This standard has been endorsed with a notification published in the official bulletin of the Estonian Centre for Standardisation.
Euroopa standardimisorganisatsioonid on teinud Euroopa standardi rahvuslikele liikmetele kättesaadavaks 16.10.2019.	Date of Availability of the European standard is 16.10.2019.
Standard on kättesaadav Eesti Standardikeskusest.	The standard is available from the Estonian Centre for Standardisation.

Tagasisidet standardi sisu kohta on võimalik edastada, kasutades EVS-i veebilehel asuvat tagasiside vormi või saates e-kirja meiliaadressile standardiosakond@evs.ee.

Railway applications - Electrical lighting for rolling stock in public transport systems - Part 1: Heavy rail

Applications ferroviaires - Éclairage électrique pour
matériel roulant des systèmes de transport public -
Partie 1 : Rail lourd

Bahnanwendungen - Elektrische Beleuchtung in
Schienenfahrzeugen des öffentlichen Verkehrs - Teil 1:
Vollbahnen

This European Standard was approved by CEN on 19 August 2019.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

European foreword

This document (EN 13272-1:2019) has been prepared by Technical Committee CEN/TC 256 “*Railway applications*”, the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by April 2020, and conflicting national standards shall be withdrawn at the latest by April 2020.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

This document, together with EN 13272-2:2019, supersedes EN 13272:2012.

The main changes with respect to EN 13272:2012 are:

- technical requirements have been brought in line with the applicable TSIs;
- requirements permitting new lighting technologies.

This series of documents *Railway applications — Electrical lighting for rolling stock in public transport systems* consists of the following parts:

- Part 1: *Heavy rail* (this document);
- Part 2: *Urban rail*.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of Directive 2016/797/EC.

For relationship with Directive 2016/797/EC, see informative Annex ZA, which is an integral part of this document.

According to the CEN-CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Introduction

This document sets out the requirements for interior lighting for heavy rail units.

This document was revised following the creation of EN 13272-2 for urban rail vehicles. This document was re-named to make a clear distinction between heavy rail and urban rail. Additionally, Annex ZA was updated for the current status of TSIs.

This document is a preview generated by EVS

1 Scope

This document contains performance requirements and recommendations for electrical lighting systems in the interiors of public transport heavy rail units, under all operating and emergency conditions.

This document applies only to new units.

The application of this document for retro-fitting of existing units is subject to agreement between Contractors.

This document also defines the requirements for testing and conformity assessment.

This document does not address lighting installed in instruments or controls.

This document does not address the requirements of lighting of boarding aids, e.g. moving entrance stairs or lifts.

This document does not address lighting installed for indication or effect purposes, including flashing lights and decorative lighting.

NOTE 1 The requirements for interior lighting for urban rail units can be found in EN 13272-2.

NOTE 2 The requirements for cab instrument lighting for heavy rail units can be found in EN 16186-2.

2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

IEC 60050-845:1987/AMD1:2016,¹ *International Electrotechnical Vocabulary Chapter 845: Lighting*

ISO 8995-1:2002, *Lighting of work places — Part 1: Indoor*
