## FOREWORD

This document:

- is the Estonian National Annex to the European Standard EN 1991-1-5:2003 “Eurocode 1: Actions on structures – Part 1-5: General actions – Thermal actions”. It includes Estonian Nationally Determined Parameters (NDP) and procedures and it must be used together with EN 1991-1-5:2003 for structural design of buildings and civil engineering works built in Estonia;
- was ratified with an order of Estonian Centre for Standardisation dated 07.09.2007 nr 129;
- is endorsed with the notification published in the October 2007 issue of the official bulletin of the Estonian centre for Standardisation.

The proposition to prepare a national annex was made by EVS/TK 13, it was coordinated by the Estonian Centre for Standardisation and funded by the Ministry of Economic Affairs and Communications.

The National annex of EVS-EN 1991-1-5 was prepared by EVS/TK 13 under vice-chairman Heiki Meos. This document has been approved by Technical Committee EVS/TK 13 „Ehituskonstruksioonide projekteerimine“.

## CONTENTS

Annex NA (informative) National requirements for Estonia .....	4
NA.5 Temperature changes in buildings.....	5
NA.5.3 Determination of temperature profiles .....	5
NA.6 Temperature changes in bridges.....	6
NA.6.1 Bridge decks.....	6
NA.6.1.1 Bridge deck types .....	6
NA.6.1.2 Consideration of thermal actions.....	6
NA.6.1.3 Uniform temperature component .....	6
NA.6.1.3.1 General .....	6
NA.6.1.3.2 Shade air temperature.....	7
NA.6.1.3.3 Range of uniform bridge temperature component.....	9
NA.6.1.4 Temperature difference components .....	9
NA.6.1.4.1 Vertical linear component (Approach 1).....	10
NA.6.1.4.2 Vertical temperature components with non-linear effects (Approach 2) .....	10
NA.6.1.4.3 Horizontal components.....	11
NA.6.1.4.4 Temperature difference components within walls of concrete box girders.....	11
NA.6.1.5 Simultaneity of uniform and temperature difference components .....	11
NA.6.1.6 Differences in the uniform temperature component between different structural elements.....	11
NA.6.2 Bridge Piers.....	12
NA.6.2.1 Consideration of thermal actions.....	12
NA.6.2.2 Temperature differences.....	12
NA.7.2 Temperature components .....	12
NA.7.2.1 Shade air temperature.....	12
NA.7.5 Values of temperature components (indicative values).....	12
NA.A Isotherms of national minimum and maximum shade air temperatures.....	13
NA.A.1 General .....	13
NA.A.2 Maximum and minimum shade air temperature values with an annual probability of being exceeded $p$ other than 0,02.....	13
NA.B Temperature differences for various surfacing depths .....	14
